

CHILDREN'S MEDICAL CENTERS
OF FRESNO

Don't Hesitate, Vaccinate!

Protect your Kids from COVID-19

Pfizer-BioNTech Vaccine NOW AVAILABLE at Children's Medical Center of Fresno

Here's what you need to know!

Is it safe?

YES! It is safe.

The Pfizer-BioTech vaccine is authorized by the Food and Drug Administration (FDA) and recommended by the CDC's Advisory Committee on Immunization Practices. For more details on vaccine safety, visit www.fda.gov/covid-19-vaccines

According to the

[Center for Disease Control and Prevention \(CDC\)](https://www.cdc.gov), children of any age have an increased risk of severe illness from COVID-19 IF they have the following underlying medical conditions:

- Obesity
- Diabetes
- Sickle cell disease
- Heart disease since birth
- Asthma or chronic lung disease
- Genetic, neurologic, or metabolic conditions
- Medical complexity (children with multiple chronic conditions)
- Immunosuppression (weakened immune system due to medical conditions or being on medications that weaken the immune system)

Who can get the vaccine?

The Pfizer-BioNTech vaccine is available for ages 12-21 years old. Your child will need 2 doses to be **FULLY** vaccinated and protected. The second dose will be scheduled 3 weeks after the first one.

Why you need it?

It will **PROTECT** your child against severe symptoms from COVID-19.
